2014-15 UNITED WAY CAMPAIGN

PROGRAMS WE SUPPORT

WORKING TOGETHER FOR COMMUNITY IMPACT

No single group can solve a community’s complex problems. It takes everyone working together to achieve results.

United Way of Northern New Jersey collaborates with many nonprofit organizations that help us achieve our mission. The following pages list some of the programs and organizations with which we are working to strengthen Education, Income, and Health in our communities.

EDUCATION: Helping children and youth thrive

United Way of Northern New Jersey makes high quality early childhood education and experiences more available and works with nonprofit child care centers to increase quality. We work with schools to improve school culture and climate and create a supportive environment for youth to feel connected and excel. We support organizations committed to improving children’s lives.

INCOME: Helping people become financially stable

We ensure more individuals and families become financially independent by helping them access income supports, improve financial literacy, build assets, and obtain and maintain employment that can sustain a family. Our community partners help us ensure that more residents can earn a stable income and live in a safe home.

HEALTH: Improving the lives of family caregivers and building healthier communities

United Way of Northern New Jersey ensures family caregivers have supports within the community and workplace. We connect unpaid family caregivers to information, education, resources, and services to help them in their caregiving journey. We support organizations that help people lead healthy lives.
